

Meet Gelothra

Software Engineer
Full Stack Web Developer

Email - imailmeet4000@gmail.com
Phone No - +91 9660432253
GitHub - <https://github.com/Meet-23115>
LinkedIn - [linkedin.com/in/meetgelothra/](https://www.linkedin.com/in/meetgelothra/)

Full-stack software engineer with experience building production web applications using Spring Boot, React, Next.js, Node.js, PostgreSQL, MongoDB, and Docker. Built client-facing e-commerce platforms, collaborated directly with customers, and deployed scalable applications using AWS, Nginx, and modern DevOps practices.

Skills

Programming Languages & Frameworks:

- Java Spring Boot, TypeScript, Python, C/C++
- Node.js, Express, React, React Native & Expo
- Machine Learning Models, AI Agents, Rag Chatbots, LLMs

Databases & Backend Services:

- MongoDB, Firebase, MySQL, Postgres
- Kafka Queues, Redis Stream and caching
- Restful APIs and Websockets and event based asynchronous programming

Hosting & Deployment:

- Vercel, Render, Heroku
- AWS, Google Cloud
- Docker, Nginx

Other Skills:

- Cloud Computing, Virtual Machines, Linux
- Git, GitHub, REST APIs, WebSocket, System Design, Project Management
- UI/UX Design Principles, Mobile App Development, Agile Development
- Seo, Google Search Console, Meta Developer Console

Professional experience

Rightlabs, Jaipur

July 2024

Web Developer (Paid Intern) | August 2024 – November 2024

- In This, I developed A full stack E-Commerce website and Its admin along with its backend
- I collaborated with senior developers and engaged directly with the client to gather their feedback
- Utilized React, NodeJS, MongoDB, Firebase, and Tailwind CSS to build a modern, scalable web application.

Projects & extracurricular

Won Intra-University Hackathon With AI-Agent Virtualization tool

- I successfully led my team to victory in the intra-university hackathon, securing funding for our AI agent.

Business Management Platform

- **Tech Stack:** Next.js • Spring Boot • PostgreSQL • Redis • Docker
- Developing an enterprise workflow automation platform designed to reduce repetitive administrative work.
- Implementing role-based authentication, workflow management, employee collaboration, and scalable backend architecture.
- Following clean architecture principles with modular services and containerized deployment.

Full Stack Social Media Platform

- **Tech Stack:** React • Node.js • MongoDB • WebSockets
- Built a social media application featuring user authentication, real-time interactions, and responsive UI.
- Designed backend APIs, database schema, and frontend components from scratch.

Client E-Commerce Platforms

- **Tech Stack:** React • Node.js • MongoDB • Firebase
- Developed multiple production-ready e-commerce websites for real clients as part of internship and freelance work.
- Built responsive storefronts, admin dashboards, authentication systems, and backend APIs.
- Participated in deployment, maintenance, and feature enhancements.

Education

Jaipur National University, Jaipur

2027

B. Tech in Computer Science | 2023 –2027

Cambridge School

2023

12th Grade | Graduated 2023

Certificates

Introduction to cloud computing by IBM Skillsbuild

- Completed certification in Introduction to Cloud Computing, covering cloud concepts, service models (IaaS, PaaS, SaaS), and basic cloud architecture.

Data Analytics by IBM Skillsbuild

- Certified in Data Analytics, with experience in data cleaning, analysis, and visualization to support data-driven decision making.

Bootstrap by EduPyramids, SINE, IIT Bombay

- Completed Bootstrap certification by EduPyramids, SINE IIT Bombay, gaining skills in building responsive and mobile-first web interfaces using Bootstrap framework
